

Muh. Nur Iksan

Full Stack Developer | Android Developer

Panakkukang, Makassar, South Sulawesi, 90231
[+62-821-9254-0227](tel:+62-821-9254-0227) | iksanpml131@gmail.com | LinkedIn: [muh-nur-iksan](#) | Portfolio: <https://iccang.netlify.app>

Summary Full Stack Developer with hands-on experience in web, mobile, and automation projects. Proven ability to design, develop, and deploy scalable applications using PHP, JavaScript, Python, and Android with Kotlin. Focus on developing scalable systems and automating business processes. Passionate about delivering efficient, maintainable code and continuously learning new technologies to enhance product quality and performance.

Key skills Full stack web development, Android application development, backend API design and integration, web automation, database design and optimization, version control system, problem solving and debugging, UI/UX implementation and responsive design, project management and communication, continuous learning and self-driven development.

Technology Knowledge **Programming Languages:** JavaScript (Node.js, Bun, Express.js, React.js, Next.js, Vue.js), PHP (Laravel, CodeIgniter, Wordpress), Python (Flask, FastAPI), Kotlin (Android), Dart (Flutter), Golang (Gin)
Web Development: HTML5, CSS3, TailwindCSS, BootstrapCSS, RESTful API, JSON, AJAX
Mobile Development: Android Studio, Kotlin, Flutter, Firebase Integration
Database Management: MySQL, PostgreSQL, MongoDB
Automation & Tools: Docker, Git, Postman, Nginx, GitHub Actions
Cloud & Deployment: Linux Server, cPanel, Vercel, Netlify
Version Control & Collaboration: GitHub, GitLab, Bitbucket, Slack

Work Experience **Tech and Platform RND** at PT. Aptana Citra Solusindo
April 2026

- Conduct technical research to evaluate the feasibility of emerging technologies
- Develop cutting-edge prototypes and Proof of Concepts (PoC) for new features
- Provide technical assistance to developers during the implementation phase

Android Developer at CV Solusi Aplikasi Digital

November 2025 – April 2026

- Developed Android-based social media with Kotlin and Android Studio
- Bug-fixing and creating multiple features
- Actively participate in code review and deployment

Tech Freelancer (Self Employee)

September 2024 – November 2025

- Developed Android and web-based admin systems for various management platforms, including HR, hospital, and job-finder applications.
- Built an automated application to capture Grafana dashboards and deliver reports using a headless system running on Linux/Docker.
- Integrated QRIS and card payment gateways into web applications to enable seamless online transactions.

AI Training Classroom Assistant at Digital Talent Scholarship

July 2024 – August 2024

- Coordinated class activities
- Assisted in organizing related sessions and projects
- Monitored participant progress and provided administrative support

Web Development Instructor at SMKN 1 Kendari

August 2023 – December 2023

- Taught fundamental and intermediate web development concepts
- Designed and delivered structured lesson plans
- Guided students through final projects

Training

Mobile Development Cohort at Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka

February 2023 – July 2023

- Developed Android applications using Kotlin and Android Studio
- Collaborated in a cross-functional team with Machine Learning and Cloud Computing
- Enhanced problem-solving and software engineering skills

Java Programming Student at Kredensial Mikro Mahasiswa Indonesia

Agustus 2021 – September 2021

- Learned and applied core Java programming concepts
- Integrated MySQL database for storing and managing transaction data
- Developed a desktop-based payment application

Organization

Android Development Core Team Member at Google Developer Students Club Universitas Halu Oleo

August 2023 – July 2024

- Building and developing tech communities on university
 - Facilitating learning Android development for the community member
 - Encourage members to create innovative solutions to real-world problems using Google technology
-

Education

Bachelor of Informatics Engineering Universitas Halu Oleo

Graduated July 2025

Grade: 3.77
